Subject: Lies from David Weaver the felon Sussex County Prosecutor

Date: Wed, 27 Jan 2010 12:44:00 -0500

I just hung up on Robert Mattia, Esq who is supposedly my attorney in the municipal appeal.

1. He told me that someone said I wanted to see a photo of David Weaver's wife.

what garbage. I have never met her, never written to her nor do I have any interest in meeting her.

What the true story is I wrote the corrupt David Weaver a letter as Mary Pawar a nurse and witness which the corrupt Sussex County Prosecutor's office has Never visited even though the corrupt Det Costello told her on a telephone call that she placed from her home to the corrupt Sussex County Prosecutor's Office that she was a witness.

I wrote David Weaver see his wife as she was a supervisor of the nurse Mary Pawar and she could vouch for Mary Pawar's believalbity. That is the total extent of my comments about his wife NOT some bullshit story that I requested her photograph or some nonsense.

As far as getting my own records from the corrupt Department of Human Services and its corrupt CEO Mr. Main and its corrupt OPRA custodians the true story is I have NOT been given the copies of records I requested a dozen

times.

There were NOT only requested under OPRA but I gave the corrupt Ann KLine a medical release forms for my own records including ALL the records I gave the felon Dr. Joseph and the felon Dr. Paul and the felon CEO Main.

I told them it included the work breakdown structure I made while in Jail.

Apparently the CORRUPT first assistant prosecutor Gregg Mueller who I thought was NOT a typical corrupt official IS as corrupt as the others in Sussex County's corrupt Sussex County Prosecutor's Office.

Per the letter I got from the corrupt Sussex County Prosecutor David Weaver Gregg Mueller is NOT even handling my so called municipal appeals of which I am threatened by the felon Judge Conforti I have not prepared a brief.

I have prepaid them and they were all ignored as well as my motions to have the vicinage changed, the judge changed the prosecutor changed ALL ignored by the felon Conforti.

So a new date for the hearing is set of Mar 12, 2010.

Why? When is the corrupt Judge Conforti going to enforce his own corrupt court order that the Borough of Stanhope is to comply with laws which they do NOT

What does the corrupt Conforti's court order say? Comply with letting Caggiano sell his home and they don't even to that as Ellen Horak intercepts my mail with check for \$2,500 and write me she refuses to read the outside of the envelop, the inside of the envelop with had a letter explaining the money was for taxes AND for payment of OPRA copies of deeds, property record cards and other Govt documents needed to prove if I need to that the corrupt Dr. Paul's report is false but the corrupt Bozonelis of course own court order states I CAN NOT examine ANY govt document in Stanhope. So how does one tell the OPRA custodian what page to copy from the official minutes as they stated they are complying with Judge Dana's court order which does NOT allow me to contact any current or former employee in the borough of Stanhope for any reason or attend any public meeting or send in an OPRA request to Stanhope or pay Stanhope or get the agendas to meeting per OPMA that they already have those funds.

So with the new news I suggest that Gregg Mueller join David weaver in federal prison as his comments are

lies, falsehoods, and that is a criminal offense.

So Gregg Mueller once Ann Rosellen is removed from her position as court administrator for she has constantly refused to perform her official duty of entering court CDRs both before Judge Manahan's illegal court order on the now dismissed criminal indictment.

Just another felon added to the list.
